

LETTER CIRCULAR - Institute for Education

Date: 7th December 2023

Ref: IfE 92/2023

From: Joanne Grima – CEO

Subject: IfE Futuristic Learning Technology

Application Link: <https://forms.office.com/e/eNVCWnDPxa>

Deadline: 17th January 2024

The Institute for Education would like to invite educators from both the Primary (Year 1-6) and the Secondary sector with their students to sessions during which they will be given the opportunity to use the futuristic technology available as learning tools. This will include:

- 1 hour of Virtual Reality (VR) video session –educational videos, and so much more!
- Gyroscopic Sphero balls – Learning interactive robotics that can be used for mathematics, design and technology and also for science experiments.
- 3D printing – A sample of how 3D printing can be used and a demo of a 3D printer printing.

Those educators who are interested in booking a place for their students (maximum 30) can use the online [application form](#) for the following dates:

Monday 22nd January 2024, 9:30 – 11:30
Tuesday 23rd January 2024, 9:30 – 11:30
Wednesday 24th January, 2024, 9:30 - 11:00
Thursday 25th January 2024, 9:30 – 11:30
Friday 26th January 2024, 9:30 – 11:30

Applications will be accepted until Wednesday **17th January 2024** on a first come first served basis.

Very few people may develop blackouts or epileptic seizures in response to specific light patterns or flashing lights. For certain people, using a virtual reality headset or being exposed to specific patterns or backdrops on television screens might cause blackouts or seizures related to epilepsy. In individuals who have never experienced seizures or epilepsy before, these disorders may cause symptoms or seizures that were previously undiagnosed. Before participating, it is advised to check if you or anybody in your family has an epileptic condition or has ever experienced a seizure of any kind.

Thank you.

Joanne Grima
